

R2000

TRIDENT AUSTRALIA
FLUID SYSTEMS & COMPONENTS

Deployment Frame

Trident Australia has a range of air-powered hydrostatic test units to cover a variety of testing scopes. Including the test fleet units covering a range of pressures, volumes and even fluids.

We ensure highest quality performance from our test units by having the gauges calibrated yearly in our NATA accredited laboratory and pumps services after ever rental job.

This HFL and EFL deployment frame includes sacrificial hoses and disconnect tooling and Mud mat structure.
